PAYMENT POLICY
(INSURANCE)

We do not render our services based on what insurance companies will or will not cover. We perform our services based on our patients' oral health and the best way to maintain and/or restore their oral health.

The portion that is charged to our patients is an **estimated** amount due based on what their insurance company has conveyed to our office staff over the telephone/internet. However, if the insurance company does not cover all the fees, the patients are responsible for any and all remaining balances.

We will file insurance claims as a courtesy; however, the patients are responsible for all the fees incurred. It is also the patients' responsibility to let our office staff know about any changes in their insurance policy since their last visit to our office.

All x-rays and records belong to Canyon Creek Family Dentistry, P.A. Copies will be furnished to patients upon their request at a charge of $50.00 per set. Due to the nature of copied x-rays, however, their diagnostic quality cannot be guaranteed.

Important notice to patients taking medications for the treatment of:

Osteoporosis
Osteopenia
Bone Cancer
Post-menopausal bone loss

If you are currently taking or have been previously treated with **Fossamax (Alendronate), Aredia (Pamidronate), Actonel (Risodronate)** or **Zometa (Zoledromate)** you should know there may be a risk of future complications with surgical dental treatment. This is especially true if you have received these drugs intravenously.

Please indicate if you have been prescribed any of the following medications:

	Yes	NO
Fossamax	**( )**	**( )**
Aredia	**( )**	**( )**
Actonel	**( )**	**( )**
Zometa	**( )**	**( )**

These four drugs, which are taken in pill form, are associated with the problem of poor bone healing. This reduction in bone healing can occur after dental treatments that affect The bone surrounding your teeth, such as: tooth extractions, periodontal infection, or dental implant placement. If the bone surrounding your teeth does not heal properly, it could result in osteonecrosis of the jaw. Osteonecrosis means "death of the bone" this is a destructive process in the jawbone that is often difficult or impossible to eliminate.

If you have ever taken one of these drugs, maintaining your oral health is even more important. Speak to your general dentist and boost your hygiene visits to three or four times per year. Make sure you get at least one dental check-up per year from your general dentist. These extra actions will help prevent complications and preserve your jawbone.

Dental Treatment Consent Form

Patient Name:

1. Health Information

I agree to disclose all previous illnesses and my medical history. Undisclosed medical information, current medications, allergies, and any illnesses may be considered risk factors.

2. Drugs, Latex and medicines

I understand that antibiotics and other medicines may cause allergic reactions and even life threatening anaphylactic shock. Also, some antibiotics may interfere with birth control pills. Latex allergy can cause rashes and itching. Epinephrine increases heartbeat and, depending on my health, may be dangerous to me.

3. Needle Stick

If someone is inadvertently stuck with a needle or sharp instrument used on me, I consent to have blood drawn for analysis at no expense to me.

4. Fillings, Crowns and Un-anticipated Root Canals

Some teeth may need a root canal even after a simple filling. Fillings and crowns do take away tooth structure and a percentage of these teeth may end up needing a root canal after the filling or crown is done.

5. Root canals can fail

Root canals may fail and may require additional treatment or I may end up having the tooth extracted.

6. Porcelain Crowns, Veneers, Bonding, and Cosmetic Fillings

Porcelain crowns, veneers, cosmetic bonding and composite fillings are esthetically pleasing. However, I understand that if they chip or break after in use successfully, I am responsible for repairs or remakes. Once a crown, veneer, bonding or filling is placed, I understand the color cannot be changed.

7. Extractions and Surgery

I understand that all dental extractions or surgeries carry risks. Some are minor like a dry-socket following an extraction and some are life threatening such as post-surgical infections or anaphylaxis.

8. Fee for additional or Specialty Care

I understand that I may need treatment beyond what was originally planned or I may be referred to a specialist for additional care. I agree to be financially responsible for any additional or specialty care.

9. Limitation of Insurance Coverage

There may be charges beyond what insurance will pay, e.g. nitrous oxide, temporary dentures, tapping off crowns or bridges, whitening, temporary fillings or cosmetic work. As a service to our patients, this office will file insurance claims on their behalf. I understand my payment-portion is **only an estimate.** I agree to be financially responsible for what insurance does not cover.

10. 24-Hours Notice for Cancellation

I agree to give a 24-hour notice for any cancellation or a $25.00 cancellation fee will be applied for each missed scheduled appointment.

I do not expect guarantees in dental care, I have read the above and consent to treatment.
